

SPECIAL FASTENERS BOLTS STUDBOLTS
WASHERS NUTS DOUBLE-ENDED STUDS
APPLIED TO THE ENERGY **CHEMICAL**
AND AEROSPACE INDUSTRIES

BEA ITALY

Bea was set up in 1964, and after many years of constant technological evolution and research it is now considered one of the most important companies in the world for production of bolting materials (studbolts, nuts, double-ended studs, hex bolts, cap screws etc) applied to the energy, petro-chemical, electrical, nuclear and aerospace industries. Bea is also a market leader in the supply of bolting components to the sub-sectors of these industries such as manufactures of valves, flanges, turbines, reactors, heaters, piping systems, heat exchangers.

ESSENTIAL DATA:

Factory Surface:
18.000 m² (8.100 covered)

Production capacity:
400 tons/month

Raw material stock:
1.700 tons

Finished stock:
1.000 tons

At Bea you will find: a fast response to every enquiry; the most extensive range of raw materials and finished products to execute even the most complex order; complete in-house forging, heat treatment and machining facilities. Finally to test the total quality of our products, a fully equipped test laboratory.

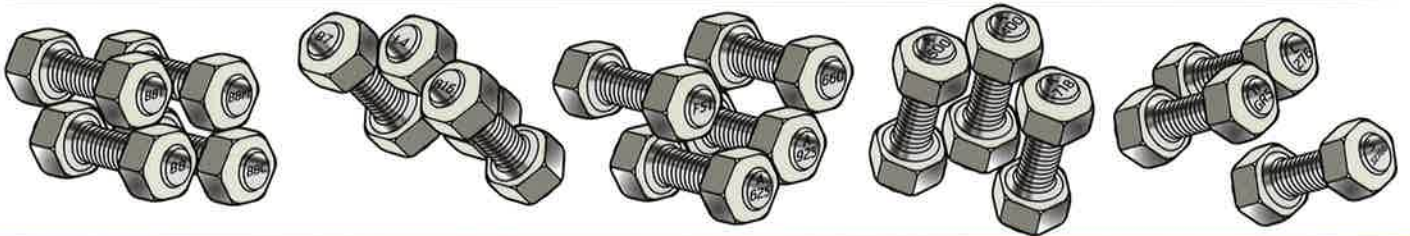

BEA NEDERLAND

Bea Nederland was set up in 1992 to better serve the markets of Northern Europe. Today it is one of the major European stockists and is unique in its specialization in nuts and studbolts in special materials.

STUDBOLTS

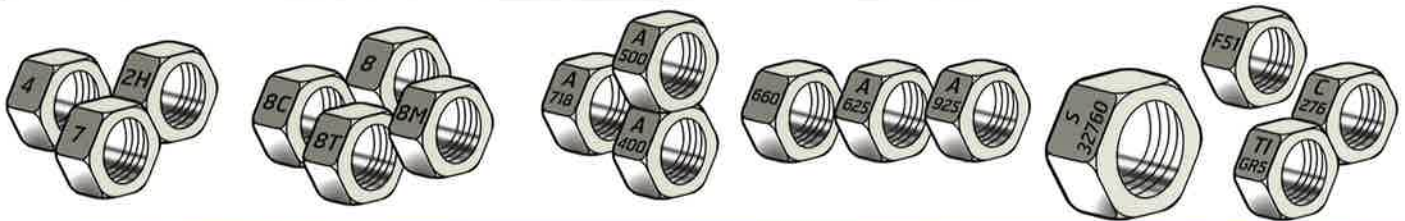

STUDBOLTS

BEA's studbolts are manufactured according to the main international specifications (ASME-ISO-DIN-UNI-EN), in a wide range of materials from low-alloy to stainless steel up to non ferrous alloys and titanium.

Dimensions: 3/8" - 5" ANSI/ASME M8 - M125 ISO

NUTS

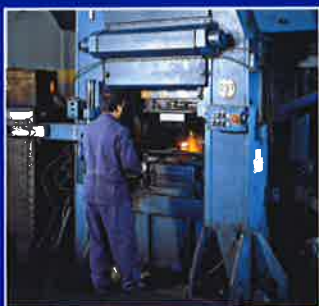

HEX NUTS

BEA's production organization for forging and heat treatment of hex nuts has placed the company at the forefront among world producers.

The element that sets BEA ahead of the market is the considerable variety of special steels produced and in stock.

Dimensions: 3/8" - 4" ANSI/ASME M8 - M100 ISO

BOLTS - CAPSCREWS

BOLTS - CAPSCREWS

BEA's production organization for forging and heat treatment of hex nuts has placed the company at the forefront among world producers.

The element that sets BEA ahead of the market is the considerable variety of special steels produced and in stock.

Dimensions: 3/8" - 4" ANSI/ASME M8 - M100 ISO

CUSTOM MADE SPECIAL FASTENERS

MADE TO THE CUSTOMER'S DRAWING

BEA produces studs, special nuts, washers and other designs to the customer's own drawings in all steel grades.

Dimensions: 3/8" - 12" ANSI/ASME M8 - M300 ISO
